

# Metallic Red

*Music & Words by Tara Grayson*

1.

Metallic red is burning in my head,  
Dreams of riots,  
Dreams of God.

Lightened up by prowling dogs  
Searching for a resurrection in a burning city.  
Like a child in a strange home  
I feel alone.

Chorus:

Show me love, show me love, show me love, show me!

2.

Walking on my road I see  
Faces soft but cold.  
Wrinkles in her eyes forgotten  
About our unearthly sky.  
Heart leaves falling down.  
They all fly by so fast  
You wonder if it could ever last.

Chorus

3.

Come in sleep,  
Come in peace,  
Come in my dance.

Tears falling down the cold face  
Is it a tear for our human race  
Or is it a tear for our forgotten place of grace.  
Live they say loud as sound  
It murders on through the cracked ground.  
I check to see if everything is right  
For I live to see that night.

Chorus
